INDEX TO TRANSACTIONS OF THE AMERICAN FISHERIES SOCIETY

VOLUMES I-LVIII

In two parts: Part I, Subject Index; Part II, Author Index. In both parts the following abbreviations are used: abstr., abstract; chmn., chairman; disc., discussion; ed., editorial; sp. sess., special session.

The system of nomenclature followed for the native food and game fishes named in the articles indexed is that of Jordan and Evermann's "American Food and Game Fishes."

References are to year, volume (in Roman numerals) and page.

PART I. SUBJECT INDEX

[SUBJECTS AND AUTHORS]

- Acclimatization of Michigan grayling in East, Norris, T., 1875, iv, 38-39.
Acetic acid as fish preservative, Clark, A. H., 1887, xvi, 28-34.
Acipenser brevirostris: see Sturgeon, short-nosed.
A. rubicundus: see Sturgeon, lake.
A. sturio: see Sturgeon, Atlantic.
Adipose fin: see Fin, adipose.
Airdracks, protection of fishing in, Hall, T. J., 1877, vi, 100-103.
Aerating device, Titcomb, J. W., March 1919, xlviii, 102-103.
 water, Japanese method of (disc.), 1907, xxxvi, 179-183.
 water, tube for, Price, J. L., 1906, xxxv, 188.
Aestivating fishes of Siam, Smith, H. M., 1926, lvi, 214-215.
Aestivation of fishes (disc.), 1881, x, 10.
Age of fishes (disc.), Dec. 1919, xlix, 23.
 of shad as determined by scales, Borodin, N., 1924, liv, 178-184.
 ✓ of shad, confirmation of Borodin's scale method of determining, Barney, R. L., 1924, liv, 168-177.
Ah-shut (*Salmo gairdneri*): see Trout, steelhead.
Air (see also Oxygen).
 excess, fish disease caused by, Marsh, M. C., 1903, xxxii, 192-199, (disc.), 199-207.
 in water, measurement of (disc.), 1903, xxxii, 199.
Alabama, stocking impounded waters of (disc.), Quinn, I. T., 1928, lviii, 83-84.
Alaska, chinook or king salmon of, Cobb, J. N., 1909, xxxix, 124-128.
 commercial cod of, Bean, T. H., 1881, x, 16-34.
 fisheries and food-fishes of, James, B. W., 1894, xxiii, 67-76.
 Fisheries Service, Evermann, B. W., 1910, xl, 219-225.
 fishery reservation, resolution endorsing creation of, 1922, lii, 21-22.
 fur-seal (*Callorhinus alascanus*): see Fur-seal, Alaska.
 grayling (*Thymallus signifer*): see Grayling, Arctic.
 (Point Barrow), fish and fishing at, Murdoch, J., 1884, xiii, 111-115.
 power development in, resolution urging protection of salmon industry from detrimental effect of, 1922, lii, 22.
 protection of food-fish supply in, James, B. W., 1898, xxvii, 112-120.
 salmon, conservation of, O'Malley, H., 1928, lviii, 37-40.
 salmon fishery reserves, resolution endorsing establishment of, 1923, liii, 18.
 salmon of and their allies, Bean, T. H., 1890, xix, 49-66.
Albatross, U. S. deep-sea dredging steamer, Washburn, F. L., 1886, xv, 17-21.
Alewife (*Pomolobus pseudoharengus*), branch herring, river herring, spring herring.
 ✓ fisheries, resolution urging adequate control and development of, 1912, xlii, 43.
 ✓ fishery of Massachusetts, Field, G. W., 1913, xliii, 143-151.
 ✓ preservation of, Belding, D. L., March 1920, xlix, 92-104.

- Algae** in food of fishes (disc.), 1926, lvi, 69.
 in food of Minnesota fishes, Kidd, P. E., 1927, lvii, 85-90.
 in pond fish-culture, Moore, E., June 1920, xlix, 148-152.
- Alkali lake**, planting fish in, Eastgate, A., June 1918, xlvii, 89-91.
- Allentown hatching station**, mortality at from inbreeding, Meehan, W. E., 1899, xxviii, 86-91.
- Allied armies**, sending fishing-tackle to (abstr.), Johnston, J. W., March 1918, xlvii, 75.
- Alosa sapidissima*: see **Shad**.
- America**, carp in, Cole, L. J., 1905, xxxiv, 201-206.
- American cod-fisheries**, results of introduction of gill-nets in, Collins, J. W., 1884, xiii, 212-228.
 Fish Cultural Association, American Fish Culturists' Association, American Fisheries Society, see below.
 fish fauna, preservation of, Ward, H. B., 1912, xlii, 157-164.
 fisheries and fish-culture, Lyman, T., 1884, xiii, 72-91.
 Museum's exhibit of fishes, Nichols, J. T., 1910, xl, 261-264.
 saibling (*Salvelinus aureolus*): see **Trout**, **Sunapee**.
 salmon and other food-fishes, James, B. W., 1892, xxi, 139-148.
- American Fisheries Society** (American Fish Culturists' Association. American Fish Cultural Association).
 addresses of presidents of: see **President's address**.
 and its proceedings, Mather, F., 1890, xix, 87-115.
 annual meetings of (ed.), Sept. 1916, xlv, 216-219.
 committees of: see **Committee reports**.
 constitution of: see **Constitution**.
 deaths of members of: see **Deaths of members**.
 donation of funds of Central Fish-Cultural Society to (disc.), 1886, xv, 25.
 history of, Bower, W. T., 1910, xl, 323-358.
 humorous review of ("The Index"), Gunckel, J. E., 1901, xxx, 62-65.
 index, by authors and subjects, to Transactions (first 18 volumes), Mather, F., 1890, xix, 95-115.
 index, by authors, to Transactions (1870-1909), Bower, W. T., 1910, xl, 343-358.
 lists of members of: see **Members**, lists of.
 name changed to American Fish Cultural Association (from American Fish Culturists' Association), 1878, vii, 76.
 name changed to American Fisheries Society (from American Fish Cultural Association), 1884, xiii, 230-238.
 organization of (as American Fish Culturists' Association), 1872, i, 3-4.
 origin of, Stone, L., 1898, xxvii, 56-64.
 papers read before, disposition of (disc.), 1900, xxix, 22-28.
 recollections of early days of, Mather, F., 1879, viii, 55-59.
 relation of to protective fish laws, Cheney, A. N., 1891, xx, 47-51.
 reports of librarian, secretaries and treasurers: see, respectively, **Librarian's report**, **Secretary's report** and **Treasurer's report**.
 resolutions of: see **Resolutions**.
- Amia calva*: see **Dogfish**, **fresh-water**.
- Amphioceious fishes**, Mather, F., 1881, x, 65-75.
- Angling exhibit at World's Columbian Exposition**, Henshall, J. A., 1893, xxii, 129-131.
 for carp, Hunt, W. T., 1911, xli, 189-192.
 library and some of its treasures, Fearing, D. B., March 1916, xlv, 53-75.

- Angling** (*con.*), licenses for, Palmer, T. S., 1911, xli, 91-97.
past, present and future of, Henshall, J. A., 1923, liii, 176-183.
report of vice-president division of, Adams, W. C., 1927, lvii, 25-27.
- Apparatus**, display of, 1905, xxxiv, 118-121.
- Aquarium** fish-culture, tropical, in industry and scientific research (with bibliography), Gordon, M., 1926, lvi, 227-237.
for New York City, resolution endorsing, 1875, iv, 11.
for Philadelphia, building of, Meehan, W. E., 1913, xliii, 179-181.
management, Mather, F., 1879, viii, 46-50.
- Aquariums**, modification of fish-protective laws in interest of, Seal, W. P., 1913, xliii, 187-192.
public, desirability of, Bower, W. T., 1921, li, 117-122.
public, desirability of in United States, Seal, W. P., 1890, x, 20-26.
public, in San Francisco, Boston and elsewhere (*disc.*), 1921, li, 122-125.
public, resolution urging need for, 1921, li, 28.
- Aquatic biology and physics**, report of vice-president division of, Davis, H. S., 1926, lvi, 25-27; 1927, lvii, 23-24.
biology and physics, report of vice-president division of, Embury, G. C., 1928, lviii, 19-22.
biology and physics, report of vice-president division of, Moore, E., 1924, liv, 15-16.
life, man as controlling factor in, Parker, J. C., 1901, xxx, 48-55.
photography: see **Photography**, aquatic.
plants: see **Plants**, aquatic.
- Aquicultural** experiment stations, Ward, H. B., 1898, xxvii, 125-129.
- Aquiculture** and fish-protection, Wilmut, S., 1875, iv, 23-34.
or water-farming, Radcliffe, L., 1926, lvi, 83-85.
status of, Radcliffe, L., 1927, lvii, 171-173.
- Aragon**, Spain, fish-culture in (at Piedra), Muntadas, F., 1892, xxi, 52-57.
- Archer-fish** (*Toxotes jaculator*): see **Shooting-fish**.
- Arctic grayling** (*Thymallus signifer*): see **Grayling**, Arctic.
- Argentina**, fish-culture in, 1906, xxxv, 195-200; 1907, xxxvi, 79-80; 1909, xxxix, 182.
fish-culture in, five years' progress in, Tulian, E. A., 1910, xl, 415-422.
- Argyrosomus laurettae*: see **Whitefish**, lauretta.
- A. pusillus*: see **Whitefish**, least.
- A. tullibee*: see **Tullibee**.
- Arkansas**, trout-hatching and rearing in, Hyerson, P. P. B., 1890, xix, 46-48.
trout (*Salmo stomias*): see **Trout**, greenback.
- Artesian wells** to replenish and purify depleted and polluted streams, Henshall, J. A., 1924, liv, 68-71.
- Atkins**, Charles G. (1841-1921), memorial sketch of, Bower, W. T., 1921, li, 31-32.
pioneer work of, Buck, W. O., 1910, xl, 72-74.
portrait of, 1911, xli, frontispiece.
- Atlantic coast fishes**, food and spawning seasons of, Blackford, E. G., 1883, xii, 5-8.
salmon (*Salmo salar*): see **Salmon**, Atlantic.
sturgeon (*Acipenser sturio*): see **Sturgeon**, common Atlantic.
waters, American, climates of, Huntsman, A. G., 1920, l, 326-333.

- Bacteriological analysis of an experimental pack of canned salmon**, Fiedler, R. H., 1921, li, 110-116.
- Baird**, Spencer Fullerton (1823-1887), biographical address in memory of, Blatchford, E. W., 1903, xxxii, 164-172.
 character of, Stone, L., 1903, xxxii, 182-184.
 memorial committee, report of, 1901, xxx, 13-14.
 memorial exercises in honor of, 1903, xxxii, 161-184.
 resolution for memorial tablet to, 1900, xxix, 41.
 scientific work of, Brooks, W. G., 1903, xxxii, 172-181.
- "Barbed trout of Kansas"** (catfish), Doze, J. B., 1925, lv, 167-183.
- Barred perch** (*Perca flavescens*): see **Perch**, yellow.
- Bass** (any species or unspecified; for various species, see below).
 and other fish in impounded waters, Le Compte, E. L., 1928, lviii, 81-83.
 and trout, rearing together, Lydell, D., 1926, lvi, 48-49.
 cestode: see **Cestode**, bass.
 culture and forage minnows, Davis, H. S., 1928, lviii, 90-95.
 culture of at Cold Spring, Ga., station, Bullock, C. A., 1923, liii, 131-134.
 eggs of, hatching (disc.), 1922, lii, 185.
 feeding of (disc.), 1920, l, 229-231.
 flatworm: see **Cestode**, bass.
 fry: see **Fry**, bass.
 ponds for: see **Ponds** for bass.
 spawning habits of (disc.), 1924, liv, 111-116.
 tapeworm: see **Cestode**, bass.
 young, feeding of, Hayford, C. O., 1921, li, 99.
- Bass, black** (either or both of two following species).
 at Mill Creek Station, Mich., Lydell, D., 1904, xxxiii, 152-155; 1906, xxxv, 171-173.
 breeding, food for (disc.), 1909, xxxix, 184-185.
 brood fish, best number per acre (disc.), 1909, xxxix, 187-188.
 carp as food for, Bartlett, S. P., 1908, xxxvii, 85-89.
 conservation measures, resolution urging need for, 1921, li, 27-28.
 cultivation of (disc.), 1925, lv, 38-62; (disc.), 1926, lvi, 55-78; Lydell, D. H., 1925, lv, 37-38; Page, G. S., 1882, xi, 19-20.
 distribution of, Henshall, J. A., 1883, xii, 21-26.
 eggs of, hatching artificially, Ripple, R. L. (attributed to Birge, E. A.), 1907, xxxvi, 154.
 experiments in rearing from No. 1 to No. 2 fingerlings, Lydell, D., 1911, xli, 147-148.
 feeding of (disc.), 1906, xxxv, 173-181; (disc.) 1907, xxxvi, 155-158; Lovejoy, S., 1904, xxxiii, 170.
 food and propagation of (disc.), 1911, xli, 307-318.
 food and transportation of (disc.), 1904, xxxv, 156-169.
 habits and culture of, Lydell, D., 1902, xxxi, 45-57; (disc.), 1902, xxxi, 58-73.
 hibernation of, Henshall, J. A., 1885, xiv, 12-13.
 in Potomac, Talbott, H., 1905, xxxiv, 124-131.
 introduction of into Maine, Page, G. S., 1880, ix, 58-62; 1884, xiii, 57-60.
 legislative protection for (disc.), 1923, liii, 38-49.
 natural and artificial conditions detrimental to, Osmund, R. C., 1923, liii, 27-38.
 nests of, tadpoles about (disc.), 1909, xxxix, 186-187.
 notes on, Bean, T. H., 1910, xl, 123-128.
 propagation of, Beeman, H. W., 1906, xxxv, 182.
 spawning of (disc.), 1902, xxxi, 148-152.
 vs. netting of coarse fish, Snyder, J. P., 1923, liii, 201-206.
 why? Snyder, J. P., 1926, lvi, 53-55.

- Bass, black, large-mouthed (*Micropterus salmoides*), straw bass, green bass, etc.**
assorting to prevent cannibalism, Stranahan, J. J., 1906, xxxv, 183-184.
cannibalism among (disc.), 1906, xxxv, 226-227.
discouragements in culture of, Dean, H. D., 1902, xxxi, 153-155.
enemies of (disc.), Doze, J. B., 1926, lvi, 62-64.
methods of hatching and rearing, O'Brien, W. J., 1898, xxvii, 84-86.
points necessary to success with, Stranahan, J. J., 1903, xxxii, 126-130.
pond-cultural station for in South Carolina, Brown, G. W. N., Dec. 1916, xlv, 30-34.
propagation of (disc.), 1900, xxix, 132-138.
propagation of at San Marcos, Texas, Baldwin, O. N., 1926, lvi, 50-52;
Leary, J. L., 1903, xxxii, 131-134.
rearing of in Texas, Riley, M., March 1917, xlv, 107-112.
spawning habits of in South, Lamkin, J. B., 1900, xxix, 129-131.
spawning habits of, peculiarities of, Stranahan, J. J., 1908, xxxvii, 157-159.
spawning of, Lamkin, J. B., 1902, xxxi, 147-148.
young, experiment in feeding, Carter, E. N., Dec. 1914, xlv, 71-72.
young, food of in Ohio waters, Turner, C. L., and Kraatz, W. C., 1920, i, 372-380.
- Bass, black, small-mouthed (*Micropterus dolomieu*), black bass.**
advances in culture of (disc.), 1909, xxxix, 183-184.
artificial nests for, Ripple, R., 1908, xxxvii, 126-130.
cannibalism among (disc.), 1927, lvii, 144-146.
culture of at Northville, Mich., Clark, F. N., 1905, xxxiv, 174-180.
during spawning season of 1910, Pennsylvania, Meehan, W. E., 1910, xl, 129-132.
field vs. artificial pond culture of, Nesley, C. H., 1913, xliii, 165-167.
food and ponds for (disc.), 1910, xl, 137-143.
fry: see Fry, bass, black, small-mouthed.
habits of, Beeman, H. W., 1924, liv, 92-107; Holt, C. F., 1888, xvii, 33-36.
propagation of, Beeman, H. W., 1924, liv, 92-107; Bower, S., 1896, xxv, 127-136; Cushman, O. P., March 1917, xlv, 113-116; Lydell, D., 1926, lvi, 43-46.
rearing of (disc.), 1905, xxxiv, 180-189.
spawning of (disc.), 1903, xxxii, 145-160.
young, food of, in Lake Erie, Wickliff, E. L., 1920, i, 364-371.
- Bass, calico (*Pomoxis sparoides*), strawberry bass, grass bass, etc.**
propagation of (disc.), 1909, xxxix, 146-148.
- Bass, "striped" (*Morone interrupta*):** see Bass, yellow.
- Bass, striped (*Roccus lineatus*), rockfish, rock.**
angling grounds for, fresh-water, Worth, S. G., 1911, xli, 115-123; (disc.), 1911, xli, 123-126.
California, preliminary studies on, Scofield, E. C., 1928, lviii, 137-142.
culture of, Snyder, J. P., 1913, xliii, 93-96.
efforts to ripen, Snyder, J. P., Dec. 1915, xlv, 40-45.
hatching of, Green, S., 1882, xi, 37-40; Worth, S. G., 1904, xxxiii, 223-228; 1909, xxxix, 155-159.
historical notes on, Fearing, D. B., 1903, xxxii, 90-98.
of Atlantic coast, Le Compte, E. L., 1926, lvi, 203-206.
penning of (disc.), 1903, xxxii, 104-108.
propagation of (disc.), 1908, xxxvii, 108-109; Worth, S. G., 1884, xiii, 209-212.
spawning of, Worth, S. G., 1903, xxxii, 98-102.
spawning of in Roanoke River, Worth, S. P., 1883, xii, 9-10.
- Bass, white (*Roccus chrysops*).**
hatching eggs of (disc.), 1909, xxxix, 108.

- Bass, yellow** (*Morone interrupta*), "striped" bass.
eggs of (disc.), 1909, xxxix, 107-108.
notes on, Burnham, C. W., 1909, xxxix, 103-106.
- Bavaria**, fishermen's school in (from *Fischerei-Zeitung*), 1910, xl, 437.
- Bean**, Tarleton Hoffman (1836-1916), memorial sketch of, Blackford, C. M., June 1917, xlv, 189-193.
- ✓ **Beans and meat**, comparative experiments in feeding (disc.), Titecomb, J. W., 1926, lvi, 130-134.
as fish food (disc.), 1925, lv, 121-123.
- Beaver**, protection of in Ontario (disc.), 1910, xl, 233-234.
- Billingsgate fish-market**, Cox, W. V. Z., 1885 xiv, 76-85.
- Biological station on Great Lakes**, need for (disc.), 1899, xxvii, 71-76.
survey (see also Stream survey; Streams and lakes; Surveys).
survey for planting eggs and fish (disc.), 1920, l, 207-211.
survey in New York State, progress of, Moore, E., 1927, lvii, 65-68.
surveys and investigations in Minnesota, Surber, T., 1922, lii, 225-238.
- Birds as hosts for fish trematodes**, Linton, E., 1911, xli, 245-259.
- Black bass**: see **Bass, black**; **Bass, black, large-mouthed**; **Bass, black, small-mouthed**.
- Black fly** (*Simulium*) as bass food (disc.), 1911, xli, 308-311.
- Black-nosed dace** (*Rhinichthys atronasus*): see **Dace, black-nosed**.
- Black-spotted mountain trout**: see **Trout, black-spotted mountain**.
- Blackford**, Eugene G. (1839-1904), portrait of, 1910, xl, opp. p. 344.
- Blackhead minnow** (*Pimephales promelas*): see **Minnow, blackhead**.
- Blanket fish** (*Thymallus signifer*): see **Grayling, Arctic**.
- Blindness and color of fishes** (disc.), 1889, xviii, 73-74.
- Blood as fish-food**, Henshall, J. A., 1903, xxxii, 63-64.
- Bloodworm fishing** (disc.), 1911, xli, 125-126.
- Blow-pipe fish** (*Toxotes jaculator*): see **Shooting-fish**.
- Blueback salmon** (*Oncorhynchus nerka*): see **Salmon, blueback**.
- "Bluefish" (*Cynoscion regalis*): see **Weakfish**.
- Bluefish** (*Pomatomus saltatrix*), "snapper."
young, Nichols, J. T., 1913, xliii, 169-172.
- Bluegill** (*Lepomis pallidus*), **blue bream**, **blue sunfish**, etc.
and perch, rearing together, Lydell, D., 1926, lvi, 47-48.
culture of, Stranahan, J. J., 1911, xli, 183-188.
for stocking small lakes, Brown, D., 1926, lvi, 207-209.
- Blunt-nosed minnow** (*Hyborhynchus notatus*): see **Minnow, blunt-nosed**.
- Bones and spines in fish-food** (disc.), 1925, lv, 124-126.
- Boric acid as fish preservative**, Clark, A. H., 1887, xvi, 28-34.
- Borodin's scale method**, confirmation of, Barney, R. L., 1924, liv, 168-177.
of determining age of shad, Borodin, N., 1924, liv, 178-184.
- Bottemann**, C. J., (-1906), death of, 1907, xxxvi, 55.
- Bow-fin** (*Amia calva*): see **Dogfish, fresh-water**.

- Branch herring (*Pomolobus pseudoharengus*): see **Alewife**.
- Bream, blue bream (*Lepomis pallidus*): see **Bluegill**.
- Breeding experiments (disc.), 1925, lv, 138-142.
for resistance to disease, Embury, G. C., and Hayford, C. O., 1925, lv, 135-138.
grounds (see also **Preserves**).
grounds for fish, resolution urging conservation of, 1911, xli, 51.
habits of fishes, improvement of fishing through knowledge of, Reighard, J., 1913, xliii, 97-103.
habits of the yellow perch, Mather, F., 1891, xx, 51-55.
selection in (disc.), 1902, xxxi, 121-124.
- British Columbia fishing interests, glaucous-winged gull in relation to, Munro A. J., 1928, lviii, 159-162.
trout of, Dymond, J. R., 1928, lviii, 69-75.
- British Isles, transporting fish in, Cox, W. V., 1886, xv, 56-58.
- Broadfish of Alaska (*Coregonus kennicotti*): see **Whitefish, broad**.
- Brook trout (*Salvelinus fontinalis*): see **Trout, brook**.
- Brown perch (*Perca flavescens*): see **Perch, yellow**.
- Brown trout (*Salmo fario*): see **Trout, brown**.

Constitution of American Fisheries Society (American Fish Culturists' Association, American Fish Cultural Association), chronologically arranged.

- with all amendments and changes from organization to 1883, Mather, F., 1884, xiii, pp. iii-vii.
- revision of 1885-6, 1887, xvi, 3-4.
- amendment reducing annual dues to \$1, 1898, xxvii, 14-16.
- amendment authorizing life members, 1900, xxix, 19-20.
- amendment formulating order of business, 1902, xxxi, 32.
- amendment raising annual dues to \$2, 1904, xxxiii, 19-22.
- with amendment to raise life memberships to \$25, 1908, xxxvii, 193-195.
- amendment providing for assistant recording secretary, 1909, xxxix, 17.
- with all amendments and revisions to 1909, Bower, W. T., 1910, xl, 332-336.
- amendment providing for sections on various subjects, 1910, xl, 32-35.
- amendment of order of business, 1911, xli, 53.
- amendments providing for club or corporate membership, and for a body of patrons paying \$50 each, 1913, xliii, 24-25.
- by-law authorizing president, recording secretary and treasurer to act on individual membership applications between annual meetings, March 1916, xlv, 98.
- amendment to replace assistant recording secretary by editor, June 1917, xlvii, 184.

- Constitution** (*con.*), amendment providing for regional sections, March 1919, xlviii, 110.
amendments combining offices of corresponding secretary and editor under title of executive secretary; providing club or corporate membership at \$5 a year; and state board memberships at \$10 a year, March 1920, xlix, 68-69.
amendment fixing annual dues of active members and libraries at \$3, 1921, li, 22.
revision of 1925, 1925, lv, 194-197.
amendment authorizing president, secretary and treasurer to transfer active members of 25 years' standing to life member list, 1926, lvi, 33.
- Consumption of fish**, encouragement of, Paulhus, J. A., 1924, liv, 138-143.
general statistics of, Phillips, B., 1881, x, 61-64.
- Cooperation in fish-culture** (between U. S. Bureau of Fisheries and state agencies, private organizations, etc.), Bissell, J. H., 1888, xvii, 89-99; Leach, G. C., 1925, lv, 102-106; 1926, lvi, 161-168.
- Copepods**, economic history of, Willey, A., 1920, l, 320-325.
- Copper oleate** as preservative of fish-nets and lines (*disc.*) 1922, lii, 70-73.
- Copper sulphate**, effect of on fish (*disc.*), 1927, lvii, 115-119.
in gill disease of trout (*disc.*), 1927, lvii, 212-216.
use of to destroy obnoxious fishes, Titcomb, J. W., Dec. 1914, xlv, 20-24; (*disc.*), 24-26.

S. salar: see Salmon, Atlantic.

S. stomias: see Trout, greenback.

Salmon (any or all species or unspecified; for definite species see below. See also Canned salmon; Grilse; Smolt).

Alaska, and their allies, Bean, T. H., 1890, xix, 49-66

Alaska, conservation of, O'Malley, H., 1928, lviii, 37-40.

American, and other food-fishes, James, B. W., 1892, xxi, 139-148.

and fishways (disc.), 1927, lvii, 197-201.

artificial propagation of in Columbia River basin, Stone, L., 1884, xiii, 21-31.

ascent of from the sea, reason for, Prince, E. E., March 1920, xlix, 125-140.

breeding, Atkins, C. G., 1874, iii, 24-30; Stone, L., 1874, iii, 9-22; Wilmot, S., 1875, iv, 23-34; 1877, (disc.), vi, 77-88.

carp as food for, Jousset de Bellesme, 1896, xxv, 69-87.

culture of, Buck, W. O., 1909, xxxix, 120-123.

eggs: see also Eggs.

eggs as food for salmon fry, Norgore, M., 1921, li, 82-85.

eggs, California, distribution of to New Zealand, Australia, etc., Stone, L., 1877, vi, 73-77.

eggs, eyed, planting of, Harrison, C. W., 1923, liii, 191-199.

eggs, "green," transportation of, Hubbard, W. F., 1903, xxii, 79-81.

eggs, hatching (disc.), 1900, xxix, 147-153; Babcock, J. P., 1910, xl, 393-395;

Robertson, A., June 1919, xlvi, 146-156; Stone, L., 1874, iii, 9-22.

eggs, manipulation of, Atkins, C. G., 1907, xxxvi, 218-222.

eggs, packing and transportation of, Stone, L., 1878, vii, 16-27.

embryo, effect of poisoning on sac of, Mather, F., 1882, xi, 7-11.

fisheries and hydro-electricity, Calderwood, W. J., 1928, lviii, 152-158.

fisheries of Washington, Mayhill, L. E., 1927, lvii, 165-170.

fry: see Fry.

in Hudson River (disc.), Mather, F., 1886, xv, 71-73; 1887, xvi, 59; 1888, xvii, 36; 1889, xviii, 39-65.

introduction of into American waters, Edmonds, M. C., 1872, i, 32-39.

landlocked, Atkins, C. G., 1884, xiii, 40-54; Bowles, B. F., 1872, i, 39-46;

Keil, W. M., 1921, li, 48-53, (disc.), 53-57.

migration of: see Migration.

Pacific, indices of age, habits, etc., of, Jordan, D. S., March 1915, xlv, 102-106.

Pacific, leaping of, Ward, H. B., 1909, xxxix, 162-167.

Pacific, migrating, protection of, Cobb, J. N., 1922, lii, 146-153.

Pacific, propagation of, Downing, S. W., 1900, xxix, 154-158.

Pacific, quantitative physiological changes in during spawning run, Greene, C. W., Dec. 1915, xlv, 5-12.

park, national, Stone, L., 1892, xxi, 149-162.

planting of (disc.), 1889, xviii, 31-34.

rearing of, Torrey, H. B., and Lancefield, D. E., March 1915, xlv, 150-153.

reclamation project, Canadian-American, Babcock, J. P., 1928, lviii, 42-47.

salt-water rearing of, Einarsen, A. S., 1927, lvii, 288-293.

spawning, degeneration of digestive tract in (disc.), 1911, xli, 268-270.

spawning of (disc.), 1900, xxix, 158-163.

spawning of, biennial, Atkins, C. G., 1885, xiv, 89-94.

Salmon, Atlantic (*Salmo salar*).

and Pacific, Ward, H. B., 1920, l, 92-95.

habits of (disc.), 1908, xxxvii, 101-108.

results of artificial culture of, Atkins, C. G., 1913, xliii, 173-177.

retention of in fresh water, Atkins, C. G., 1911, xli, 135-137.

Salmon, blueback (*Oncorhynchus nerka*), sockeye salmon, sawkeye, sauqui, red salmon, redfish (see also Fraser River fishery).

food and planting of (disc.), 1921, li, 94-96.

- Salmon, blue back (*con.*), migration of (with bibliography), Ward, H. B., 1920, I, 387-426.
 picture, 1890, xix, Fig. 21, Plate VII, following p. 48.
 young, growth of, Robertson, A., 1921, I, 91-94.
- Salmon, chinook (*Oncorhynchus tshawytscha*), quinnat salmon, king salmon, Columbia River salmon, Sacramento salmon, tshawytscha.
 effects of waste sulphite liquor on early stages of and means of prevention by disposal methods, Nightingale, H. W., and Loosanoff, V., 1928, Iviii, 230-236.
 eggs of, methods of collecting, Bower, W. T., 1905, xxxiv, 232-238.
